SOLARA FLEXO 5.0

USB | 12V | Pb-Ca | Wet | Gel

Overview

SOLARA FLEXO 5.0
cod. 807581
Compact and portable solar cell trickle charger for maintenance of 12V batteries used by motorcycles, automobiles, boats, campervans etc. It transforms solar power into electricity which can be used wherever you are. The construction technology allows you to operate with a wide light spectrum, also in cloudy or dim light weather conditions. SOLARA FLEXO allows charging via 5V USB port of electronic devices (tablets, smartphones, MP3 players, notebooks, cameras etc.). By connecting additional panels, it is possible to achieve greater power. Complete with interchangeableconnectors (battery clamps and cigarette lighter jack).
