EMF SAFE | PATENTED | QUICK OPERATIONS

AUTOMATIC | Smart Regulation | Smart Protection | Smart Activation

Overview

SMART INDUCTOR 5000 200-240V CLASSIC+ACC
cod. 865011
Induction heating system that is an intelligent solution for speeding up and simplifying the removalof glued (windows, rear windows, plastic parts, stickers, glass roofs, interior and exterior trims, etc.) or blocked (bolts, bearings, gears, etc.) parts from vehicles. It is particularly suitable forvehicle bodies, and guarantees greatly reduced intervention times. It adjusts its intensity in an intelligent and completely automatic manner (Smart Power) using an innovative AutoCheck microprocessor system. Using the principle of electromagnetic induction, it can transfer a large amount of heat to a specific area (Smart Protection) in just a few seconds. In this way it does not damage glass, rubber, plastic and painted surfaces in the area being worked on, or even in the surrounding areas. For maximum practicality and operator safety, it activates automatically (Smart Activation) near the area in which it has to work. Characteristics: intelligent control with Autocheck system * user-friendly digital panel * automatic and manual mode * activation and correct operation signals * foot control. Supplied complete with accessories: Super Remover, Heat Twister, Pad Inductor and 3 levers.
